

NCH Simulation Center Code of Conduct

1. The Simulation Center is always to be treated as a **REAL** clinical setting. Please treat the manikins and the equipment with proper care and respect.
2. It is expected that you will come to the Simulation Center having completed the assigned preparatory work (if assigned) and maintain a professional learning experience.
3. Please silence your cell phones upon arrival.
4. Ideally - do not bring in any valuable items, as there is nowhere to store belongings. Please bring a jacket/coat if you would like.
5. I understand that I may be required to check in electronically and check out electronically. You may also be asked to complete a post-simulation evaluation.
6. Professional conduct and communication are always expected in the Simulation Center. You will be participating and observing others during simulation experiences. Please maintain a respectful and safe learning environment for your colleagues.
7. Please wash your hands before any contact with the manikins and/or equipment. Natural oils on your hands can destroy the “skin”. Utilize gloves provided as you would in the clinical setting.
8. CHG or Betadine dyes and ink will leave a permanent mark on the manikins. For this reason, **only pencils** are permitted in the Simulation Center.
9. Place all sharps in the approved sharps container box.
10. Manikins are always to remain on the beds. Equipment should only be relocated/removed by authorized Simulation Center persons.
11. Please leave the Simulation Center as you found it. Ask for assistance to return all equipment to its appropriate location. Identify damaged or missing equipment immediately to the Simulation Center employee present.
12. Food and beverages are not permitted in the Simulation Center.
