NCH RESEARCH

Introduction

Located in the heart of Naples, Florida, the NCH Research Institute was built to provide the highest quality research to support our teams across multiple therapeutic areas. The NCH Research Institute allows our teams to participate in national and international clinical trials through its dedicated research staff of study coordinators, screening coordinators, and regulatory coordinator. Visit nch-research.com to learn more about our trials and how to get involved.

Our Goals

- To provide the highest quality of care and achieve the best clinical outcomes for all our patients
- To offer potential treatment options that are not available elsewhere
- To provide treatment to our patients within their own community
- To recruit and retain the best clinical teams, nationally recognized professionals, and thought leaders

Sponsors

The NCH Research Institute offers a connection to and the resources of a robust hospital system and community roots with a strong focus on patient care and education. Our site works closely with our network of Physicians to find patients who are ideal candidates for trials across a wide range of therapies. Learn why we are the ideal institute to partner with for your research initiatives at nch-research.com.

Patients

The NCH Research Institute considers patient care our most important duty. We believe in guiding patients with communication, education, and support every step of the way.

Physicians

The NCH Research Institute is focused on providing opportunities for physicians and clinicians to advance their professional skills via work with new technologies years before they are available in standard practice. We invite you to explore these opportunities at nch-research.com to find out more.

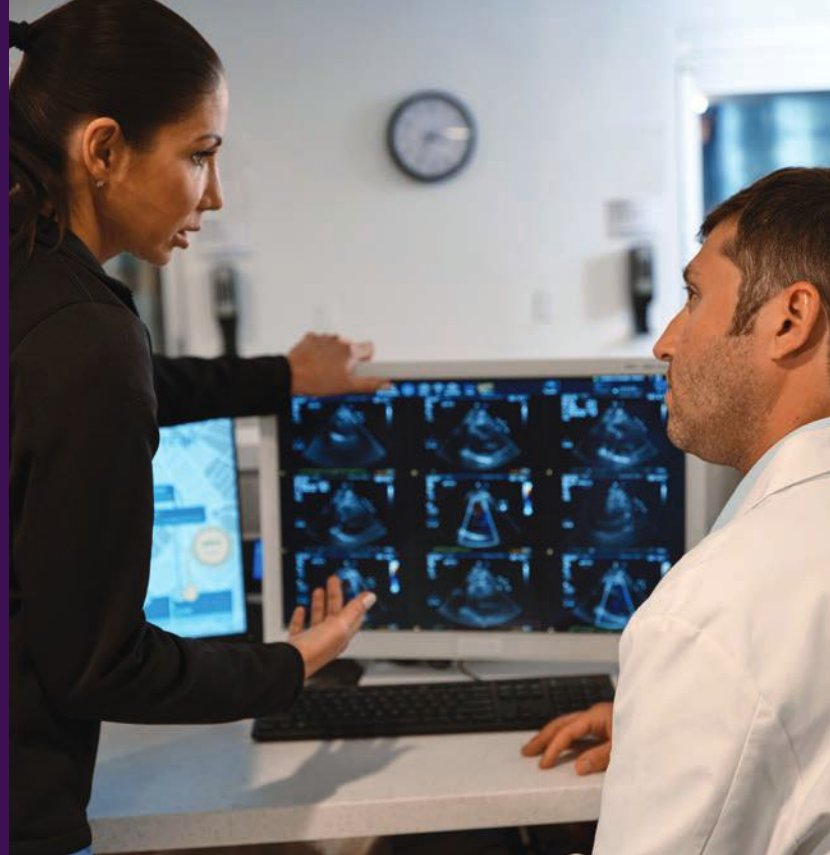

Site Capabilities

Our site works in conjunction with NCH Healthcare System and has access to full imaging services, lab, and patient support services.

Equipment available onsite:

- Freezer -70c
